

Perfect.Live B2B Platform

Zero downtime. Zero bureaucratic friction.
Absolute execution

Exceptional Personal Assistant, AI Amplified

Perfect.Live

Refined over a decade of serving the world's most discerning clientele, Perfect.Live is an exclusive global lifestyle management ecosystem for individuals who value their time above everything else. Instead of coordinating dozens of providers, assistants, travel agents, and service companies, our members gain absolute institutional-level capabilities and a single trusted partner with a 24/7 operational presence across 127 countries.

Whether you require complex private aviation and bespoke travel, priority access to haute gastronomy and globally sold-out events, comprehensive medical evacuation support, rare asset procurement, or flawless daily management — Perfect.Live orchestrates it seamlessly through a dedicated point of contact

Global Ecosystem for Flawless Living

10.000

A trusted global network of vetted partners,
enabling us to deliver complex requests seamlessly
across regions

127

Operating across 127 countries,
with active client usage worldwide

24

Coverage of 24 time zones,
enabling true 24/7 service delivery

Data-Driven. Human-Perfected

Where Internal Teams Lose Time, Money, and Focus

We Manage the Lifestyle. You Retain the Capital

Fragmented corporate travel agencies and limited executive assistants create operational bottlenecks

Short-notice, non-standard requests overwhelm internal workflows

Approval chaos across chat and email — no audit trail, no accountability

No visibility into lifestyle spend ROI

Data sensitivity blocks traditional outsourcing

These are not scalable workflows for internal teams

Our Approach: The Future of Corporate Excellence

Fractional Cost. Infinite Capabilities

✓ Seamless Digital Integration

API-first infrastructure embeds into your existing ecosystem. Bank-grade data privacy. Zero IT friction

✓ Human-Perfected Execution

Algorithms optimize routing. Our elite assistants execute the final mile with discretion and emotional intelligence

✓ Strategic ROI

Lifestyle management transforms from an unpredictable expense into a driver of client retention, team productivity, and brand prestige

Why This Works for VIP-Driven Businesses

Perfect.Live removes friction without removing control

✓ Your team retains full
approval authority

✓ Your brand maintains
ownership of client
relationships

✓ Your data stays protected
with enterprise-grade
security

Launch Your Branded Personal Assistant in Weeks. Scale Infinitely

What We Execute

We do not sell "services". We execute high-value scenarios where access and speed separate winners from the rest

☆ Corporate Travel & Global Mobility

End-to-end orchestration of business trips — from complex flight logistics to 24/7 on-the-ground support

☆ Corporate Event Architecture

Flawless execution of retreats, international summits, and exclusive team-building experiences

☆ Corporate Gifting & Hospitality

Strategic sourcing of gifts, privileged access to premier global events, and personalized rewards for key stakeholders

☆ C-Level Executive Assistance

24/7 digital-first personal assistant for leadership — absolute availability, discretion, and zero downtime

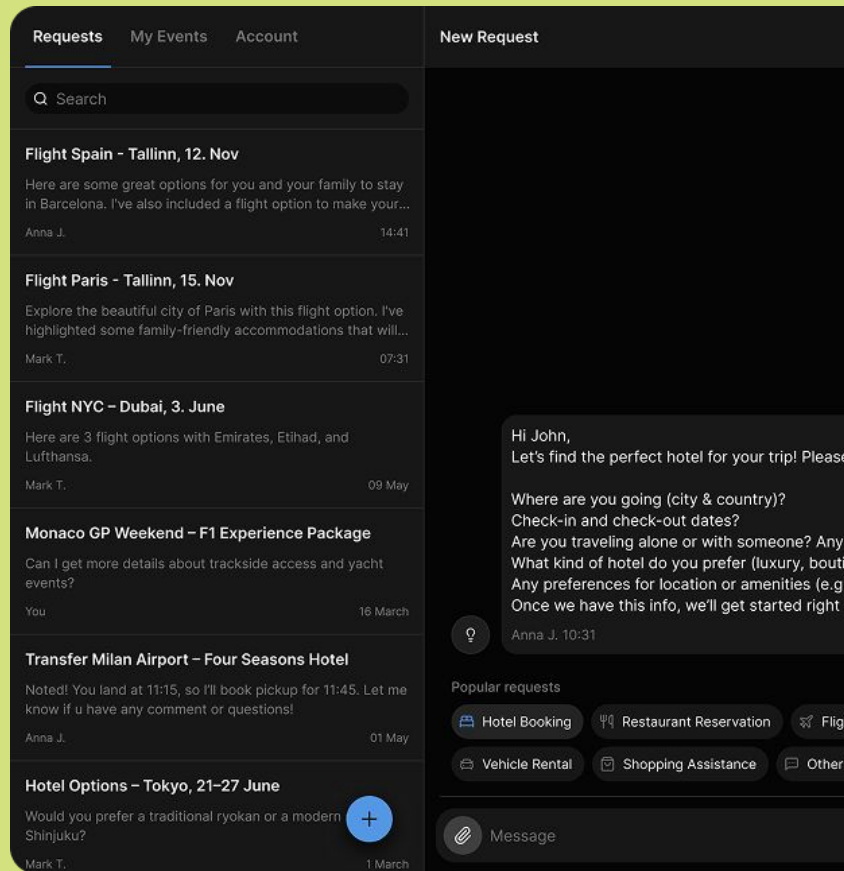

Algorithms Find Options. Our Network Secures Them

How It Works

- Your team creates a request via the dashboard or API
- AI instantly analyzes and proposes options
- Our personal assistant reviews and refines every detail
- You approve with one click — full audit trail
- We execute end-to-end with white-glove precision
- Any details are clarified in-chat connected to a request

AI Proposes. We Execute

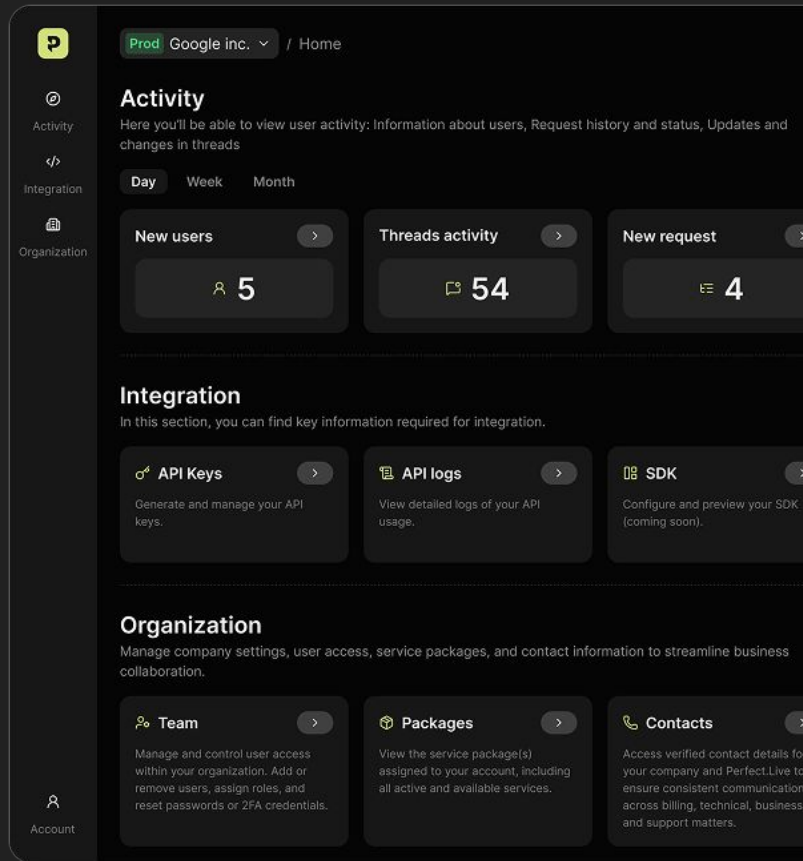

Enterprise Dashboard & Analytics

Built for enterprise security and clear accountability — nothing happens without the right approval

- 01 Define who can create requests and approve spend
- 02 Assign roles per employee (Requester, Approver, Admin)
- 03 Transparent reporting and actionable insights
- 04 Secure, anonymized data on client engagement and lifestyle requests to measure ROI

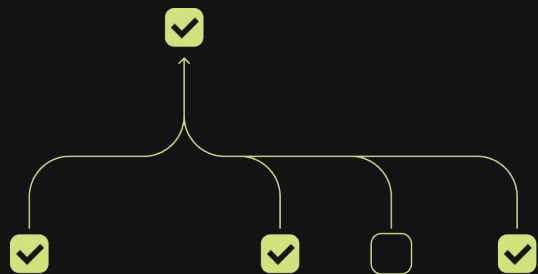

Return on Time. Guaranteed

Fin Model and Transparency

The platform operates on a prepaid balance model. Each company maintains a balance that can be topped up at any time. After a request is approved and executed, the exact amount is deducted from the balance.

Lifestyle management transforms from an unpredictable corporate expense into a measurable driver of ROI

✓ Every request shows its final cost

✓ Approved amounts are visible before execution

✓ Historical spend is always accessible

Tech Manages the Routine. We Curate the Exceptional

Privacy, Security & VIP Data Control

- ✓ Dedicated teams with access only to assigned requests
- ✓ Role-based permissions, 2FA, and full activity logging
- ✓ Industry best practices for security and infrastructure
- ✓ VIP data is visible only while a request is active
- ✓ Automatically or manually censored after completion
- ✓ Applies across the admin panel, chats, offers, and back-office
- ✓ Bank-grade data privacy

Algorithms Don't Feel Nuances. We Do

Absolute Security

For Perfect.Live members, security extends far beyond physical protection. It encompasses absolute legal compliance, uncompromising asset preservation, a definitive shield against financial exposure, and complete protection of your digital footprint at every step

Absolute Security

Emergency response: open waters medical intervention

📍 Italy

While vacationing aboard a superyacht in the waters of Costa Smeralda, our member experienced an acute allergic reaction (presenting a risk of anaphylactic shock) following a bee sting. Returning to port would have caused an unacceptable delay.

Within 22 minutes, we coordinated the dispatch of a private medical helicopter from Olbia. A critical care physician was lowered directly onto the upper deck of the vessel, immediately administered the required medication, and neutralised the attack.

The resident's condition was stabilised without interrupting the cruise

Absolute Security

Tactical aviation: high-risk zone evacuation

📍 Switzerland

During a backcountry expedition in the Engadin region, our member became stranded on complex rocky terrain outside the coverage area of standard rescue services. The situation was exacerbated by rapidly deteriorating visibility and an approaching storm.

We immediately deployed a partner asset — a specialised high-altitude Airbus H145 helicopter. The pilot hovered with surgical precision over the gorge, allowing a rescue specialist to descend via winch, secure our member, and safely hoist him aboard just 15 minutes before the flight window completely closed

Absolute Security

Crisis management: geopolitical emergency evacuation

📍 United Arab Emirates

Following a sudden escalation of a military conflict in the member's current location, we developed and executed an emergency evacuation plan within a matter of hours.

By utilising unconventional overland corridors and transit flights, we safely extracted the member and his family to a neutral jurisdiction

Absolute Security

Digital privacy: comprehensive footprint erasure

📍 United Kingdom

A vulnerability was discovered across open-source intelligence platforms and commercial data aggregators, resulting in the leak of confidential information regarding a member's private residence, travel itineraries, and the personal contacts of family members.

Perfect.Live conducted a comprehensive audit of the digital landscape, initiated a series of strict legal demands under GDPR compliance (Right to be Forgotten), and secured the removal of all records from databases within 48 hours, followed by a complete scrubbing of search engine results within 30 days.

Absolute privacy was fully restored

Absolute Security

Legal compliance: migration and security audit

📍 Cyprus

The member planned a complex transit route across the border of Northern Cyprus. Our team conducted an urgent legal audit and identified critical immigration risks: the chosen point of entry was not legally recognised.

We completely restructured the logistics, ensuring 100% legal compliance and eliminating any risk of deportation

Absolute Security

Financial security: evidence-based asset protection

📍 Principality of Monaco

Upon the conclusion of a seasonal historical residence rental, the property management company attempted to withhold a €25,000 security deposit from our member, citing inflated costs for specialised cleaning and fabricated claims of interior damage.

Perfect.Live retrieved detailed check-in inventory protocols, conducted an independent appraisal of the issued invoices, and exposed the complete discrepancy between the claims and reality. We presented an irrefutable body of evidence and secured a 100% out-of-court refund of the deposit to the member's account within 48 hours

Absolute Security

Asset recovery: secure confidential logistics

📍 Kingdom of Morocco

In the morning, our member inadvertently left collectable timepieces and fine jewellery in their hotel suite in Essaouira.

We orchestrated a seamless synchronisation between the hotel's security teams and a premium courier service, ensuring the confidential transfer and direct hand-to-hand delivery of the valuable cargo to the member, who was already in Tangier, all within a single day

Flawless Solutions

We do not accept the concept of impossible. Perfect.Live is an institutional-grade infrastructure designed to transcend the boundaries of conventional service

Flawless Solutions

Maritime logistics: premium berth securement

📍 Principality of Monaco

A member's superyacht lost its confirmed mooring in Port d'Hercule just 48 hours before the Monaco Grand Prix due to a third-party charter broker's administrative failure. Securing an alternative berth during this peak global event is universally considered impossible.

Leveraging our direct institutional relationships with the local maritime authorities, we successfully negotiated the release of a restricted reserve slip.

The vessel was docked seamlessly, preserving the member's strategic positioning and scheduled onboard private reception

Flawless Solutions

Time management: commercial flight retention

📍 United Arab Emirates

Our members were running late for a late-night international flight from Dubai; the terminal gates were officially closed, and boarding was completely finalised.

Leveraging our established institutional relationships with aviation authorities and airport administration, we successfully halted the aircraft's departure remotely. The aircraft waited for our members and departed with them onboard

Flawless Solutions

Travel architecture: intelligent multimodal routing

📍 France

An airline cancelled a member's direct flight, automatically rebooking him onto a highly inconvenient route involving two transfers and a 24-hour delay.

We rapidly developed and executed a seamless multimodal alternative (a connecting express train to a neighbouring aviation hub combined with a direct flight), completely preserving the member's travel timeline and comfort, despite his lack of transit visas for other zones

Flawless Solutions

Administrative resolution: vehicle rental without physical licence

📍 Spain

A member arrived in Marbella only to discover he had left his original driving credentials in another jurisdiction. Under the strict internal regulations of European rental agencies, issuing a vehicle was categorically impossible.

We promptly resolved the matter within the legal framework by validating the member's status through secure digital registries, providing a legitimate electronic duplicate, and finalising the lease of a premium sports car

Flawless Solutions

Regulatory compliance: high-value art export

📍 France

Following a private auction in Paris, our member acquired a museum-grade masterpiece intended for their primary residence in Dubai. The cross-border transfer was abruptly halted when local cultural authorities flagged the piece for a potential national heritage embargo.

We immediately deployed a specialised legal team to conduct an expedited provenance audit and appeal the restriction. Through precise institutional argumentation, we secured the necessary export licences and orchestrated a secure, climate-controlled airborne transit, completely bypassing months of standard bureaucratic delays

Flawless Solutions

Cross-border logistics: regulatory asset clearance

Italy

A member required the urgent delivery of a custom interior module valued at €150,000 from Europe. Due to specific dimensions and complex customs protocols, European border authorities blocked the shipment.

Through direct expert negotiations with customs control representatives, we promptly adjusted the asset's legal classification, resolving the issue and securing unobstructed clearance for the cargo.

Flawless Solutions

Priority courier: sensitive document transit

📍 United Kingdom

For an official wedding ceremony in Monaco, a member critically lacked the original certified copies of her birth certificates.

We organised the emergency retrieval of the documents from a London archive and their delivery via a personal courier over a complex transit route, placing them directly into the member's hands in less than 24 hours

Flawless Solutions

Nightly magic: impossible procurement

📍 United Arab Emirates

Late at night, our member realised it was the dawn of his child's birthday, and the primary gift had not yet been acquired.

Operating against the clock, our specialists located a strictly B2B closed warehouse, secured a highly sought-after, limited-edition collectable bicycle, and delivered it directly to the doors of the member's penthouse in Dubai. The family's morning commenced flawlessly

Ultimate Convenience

We don't just save time. We create it

Ultimate Convenience

Property management: turnkey seasonal recommissioning

📍 Switzerland

A member made a sudden decision to initiate the winter season at their private chalet in St. Moritz, which had remained unoccupied for eight months. To spare the member from the extensive operational routine of property recommissioning, our advance team assumed immediate control.

Within 48 hours, we fully reactivated the estate's engineering systems, restocked the wine cellar with the member's preferred vintages, vetted and onboarded a private chef, and arranged for personalised ski equipment fittings directly in the chalet's lounge.

The member arrived at a warm, fully staffed, and perfectly conditioned home without dedicating a single minute to logistical management

Ultimate Convenience

Bespoke styling: global wardrobe orchestration

📍 Japan

During an intensive corporate roadshow in Tokyo, our member received an unexpected invitation to a highly exclusive black-tie gala, lacking the appropriate formal wear for the occasion. Recognising that the member's schedule permitted zero time for personal shopping, we utilised their established sizing profile to resolve the issue seamlessly.

Our styling curators sourced a premium tailored tuxedo from a luxury fashion house, coordinated emergency alterations, and delivered the meticulously pressed garments and matching accessories directly to the member's hotel suite wardrobe.

The member returned to their room to find a flawless outfit waiting, completely bypassing the traditional retail experience

Ultimate Convenience

Asset procurement: white-glove cross-border logistics

📍 United States of America

A member required limited-edition fine jewellery from an American brand valued at over \$50,000. Due to the boutique's lack of international shipping and the member's reluctance to incur the time costs associated with customs declarations, we assumed complete control of the process.

Our representative physically purchased the pieces in the U.S., navigated all cross-border courier and customs formalities, and delivered the assets to the member in Europe on a turnkey basis

Ultimate Convenience

Fleet infrastructure: comprehensive vehicle management

📍 Portugal

While our member was away on a business trip, we remotely orchestrated the scheduled maintenance of his vehicle on the island of Madeira.

The process involved complex, multi-tiered logistics: transporting the car via ferry, arranging specialised towing, delivering it to the authorised service centre in Lisbon, strictly overseeing the maintenance procedures, and ensuring its seamless return to the villa prior to the member's arrival

Ultimate Convenience

Bespoke provisioning: remote residence supply

📍 France

Our members were vacationing at a secluded villa in the forested region of Provence, completely detached from domestic routines.

Following a single text message in our secure chat, we orchestrated a late-night delivery of rare tobacco products.

The following day, we arranged the supply of premium steaks for dinner, executing all tasks flawlessly before the members returned from a wine tasting experience

Bespoke Experiences

We unlock access to exclusive realms
where wealth alone holds no influence

Bespoke Experiences

Unrestricted cultural access: private museum curation

📍 France

Our member expressed a desire to propose to his partner in absolute privacy, surrounded by historical masterpieces.

We orchestrated an exclusive, after-hours closure of a world-renowned Parisian museum. The couple enjoyed a privately guided curation of the galleries without a single tourist in sight, culminating in a bespoke dining experience prepared by a three-Michelin-starred chef directly under the museum's iconic glass architecture

Bespoke Experiences

Unattainable access: global tours and autographs

📍 United States of America

It was of critical importance for our member's family to secure a personalised autograph from a global music icon following a strictly private stadium concert.

Our curator bypassed standard protocols to obtain official access to the artist's inner backstage sanctum, endured a multi-hour wait after the show's conclusion, and successfully acquired a personally dedicated commemorative artefact for the member's child

Bespoke Experiences

Philanthropy & impact: family legacy structuring

📍 United Republic of Tanzania

As part of a sustainable development and family legacy initiative, we orchestrated the official guardianship process of a rescued lion cub from an African national reserve for our member.

Our team flawlessly managed the international legal documentation, resolved all procedural matters with the wildlife conservation foundation, and arranged a private viewing expedition for the family

Bespoke Experiences

Immersive sporting privilege: private tennis masterclass

📍 Switzerland

To celebrate a member's sporting passion, we arranged an unlisted, private tennis masterclass with a former Grand Slam champion at a secluded alpine club.

The experience included a personalised coaching session, a closed-door luncheon with the legendary athlete, and a customised set of professional gear, delivering an emotional milestone that cannot be conventionally purchased

Bespoke Experiences

Mid-ocean celebration: boundless hospitality

📍 The Bahamas

Perfect.Live remains by your side, even when our member is navigating the open ocean aboard a superyacht. We remotely synchronised with the vessel's crew and the staff of an ultra-exclusive private island resort to arrange a breathtaking festive decoration of the master cabin.

Simultaneously, we coordinated the delivery of a bespoke artisanal cake and an exquisite table setting, orchestrating a seamless, turnkey surprise for the guest of honour

Bespoke Experiences

Bespoke art commission: masterpiece curation

Our member required the creation of a unique anniversary gift — a custom classical bust crafted from a single photograph from their personal archive. We engaged hereditary Italian master sculptors from Tuscany, negotiating the bypass of their standard multi-month waiting lists.

The artisans meticulously executed the complex artistic commission in pure Carrara marble in under seven days
